Professional Summary

Motivated Computer Science and Engineering student pursuing a B.Tech degree at Roorkee Institute of Technology. Strong foundation in C and C++ programming with a growing interest in software development, data structures, algorithms, and problem-solving. Passionate about building real-world technology solutions and continuously improving technical skills through projects and self-learning.

Education

Bachelor of Technology (B.Tech), Computer Science & Engineering

Roorkee Institute of Technology, Roorkee

Expected Graduation: 2029

Technical Skills

- Programming Languages: C, C++
- Web Technologies: HTML, CSS, JavaScript (Learning)
- Computer Science Fundamentals: Data Structures and Algorithms (Learning)
- Tools: Git, GitHub, VS Code
- Operating Systems: Windows, Linux (Basic)

Projects

Smart Hospital Management System

- Designed a hospital management solution to streamline patient registration and healthcare operations.
- Planned modules for appointment scheduling, patient records, and hospital workflow management.
- Focused on improving efficiency and reducing manual processes.

Patient Registration System

- Developed a digital patient registration module for efficient data collection and record management.
- Reduced paperwork and improved accessibility of patient information.

Achievements & Activities

- Participated in technical project development and collaborative learning activities.
- Continuously improving programming and software development skills.
- Exploring real-world applications of technology through project-based learning.

Strengths

- Problem Solving
- Quick Learner
- Team Collaboration
- Communication Skills
